Summary I am a product-minded **frontend software engineer** seeking a senior front-end role. Former designer turned developer who loves good UI/UX, clean architecture, and VueJS (React is cool too).

Experience **Bright Funds**

Frontend Software Engineer
Remote (PA, US)
March 2021 - April 2023

- Part of a cross-functional team maintaining and improving a corporate social responsibility (CSR) enterprise product.
- Collaborated closely with the engineering manager and senior stakeholders to develop and implement strategic initiatives.
- Improved the user interface design and accessibility of the entire platform, resulting in higher user satisfaction and a more modern look and feel.
- Spearheaded the conversion of a legacy site from Ruby on Rails to VueJS, resulting in a significant improvement in code maintainability and scalability.

Reorg

Frontend Software Engineer
New York, NY
February 2017 - March 2021

- Worked closely with product and back-end as a developer/designer hybrid to bring features to life from prototyping through development using component-based client architecture and VueJS.
- Improved the time to interactive (TTI) of a data-heavy table by over a minute, resulting in faster page load times and a better user experience.
- Increased click-through by 200% on a platform feature using autocomplete suggestions based on search terms.
- Co-created the Women in Tech at Reorg meetup hosting events for the tech community.

Languages & Libraries

- JavaScript
- Typescript
- VueJS/Vuex
- React
- Next.js/Nuxt.js
- D3.js
- Tailwind
